Dear Comrade

I enclose clipping from
San F - Call of Dec 15th. I hope our
reb comrades will by this time appreciate
the value of the information furnished
by Section S F some months since in
regard to this ex-Salvation Army beggar
and most notorious "bilk". Should he
again leave this "nest of the woods" I
shall advise you in order that our
comrades throughout the country may be
warned to look out for him and none be
again taken in. While he remains upon
this coast we will see that he receives
proper attention. Our civilization is responsible
for many nasty things, but none more utterly
worthless than this fellow whom it would be
rank flattery to call a skunk. Fred E. Kingsley
