New York

Dear Comrad

Your welcome letter
of Jan 30 to hand and
continues to be a waver
But that one bundle of
Lyle's have a good hand
I have carefully distributed
them your advice is
good and I shall make
a thorough study of
the L.P. but like a
grate man other grate men
I think you are mistaken

about the 2^d yet different
men have different opinions
that is what it take to
make a world if we all
believe alike we would
not have to advocate
Socialist-Principals
we would all be Socialist
if we could think alike
I will do my best
with the literature I think
after the people reads a
while they can see the
error of the way that
they have bin voting all
at the time I will please
you mean to vote anything
else but Socialist the rest
of my days and shall work
on all the people to try
to educate them in that line
I see in the California papers

Published at Rusk in that
our state had 1611 votes in
the last election that is a
storty Ray would it not
be well for youse baddy
to appoint Cousad
J. Lake of Ventura Calif
as S. M. he is all a R.
and Cousade J. R. Walden
of Saticoy Calif is a
good man for a S. M.
at that town, suppose
you send some literature
to each of those gentlemen
it will do no hurt to try.
What would it cost me
to have you make 100 tracts
to send out ^{person} different each
month if it not, two spere
I may try it - I think if we
could get a hundred working
men to read the tracts that

way for one year that
we could get up a big
club in this country and
approach a man and ask
him if he will Read the
Paper for one year if I
will send it to him & don't
think that it would be
lost - Perhaps it would
be well for the National
Executive Committee to
do that as that I am
so poor if you could
do this I will get all
the names that I can
and I am satisfied that
I can get a good many
many that will agree to
Read if you get a man
to Read you can get him
to think and to act -

67
hoping to hear occasional
ly from you and that
the L.L.P. may succeed
beyond our utmost
expectations I am
Yours fraternally

G. N. Thompson
