Dear Comrade

Who<sup>s</sup> signs the answers to the "questions to be asked the applicant by the chairman" on the "Application for membership" card I enclose.

Are they to be signed by the chairman or applicant?

{ Is it imperative that the questions be asked by chairman, or can an applicant sign <sup>the question on</sup> the card and send it in by a member and thus not be present at the meeting at which he is voted on.

It happens at times that a person desires to join who for some reason cannot be present, but one or more members can vouch for him. Can such person be admitted. I understand the questions are to be answered by writing

"yes" is that correct.

There are 12 or 15 names signed to the roll of membership for a mixed assembly of B. F. & L. A.

There will be several more names added before it is sent in.

I have not seen "Boomer" name in the "People" yet amongst the list of Expelled - what's the reason.

About when shall we look for Hickey?

Sec Seattle took in 4 members last night and State Com. 2 more

I will urge a right vote on the Operation from the dirty Volk getting crowd. Sec Seattle will vote on it the 28<sup>th</sup> - and I will write all sections about it.

Are you going ahead with the new Marx picture? Walker never got his -

We are having fine Sunday night meetings now, house full and much interest.

Fraternally
