Received yesterday subscription lists for Natl. Campaign Fund, they come a little late as I have already sent our own subscription blanks over the State broadcast. Will see though.

Send you newspaper clipping. Gives you an insight into the fun we are having. All arrested will demand separate jury trials so as to give the County some expense, our boys are getting tired of being continually arrested and discharged the next day. Municipal ordinances and State laws aside from U. S. Constitution are all in our favor. Nevertheless a gang of saboteurs convicted one of our comrades, judge got scared and only imposed \$5 bail and the infernal fool refused to go to jail for 24 hours. Imagine, reading our glorious Constitution, through a beer glass.

We have given up the Branches as part of the Party organization. Am. Br. though still continues to public meetings as they are a paying affair throwing off a good profit.

The Party has the 10 Assembly Districts ^{in this city},
all organized - more or less - These send
representatives to the County Com. which
now constitutes Section Four Francisco.

We could have a fine organization
in this city if more had a vague inkling
of what organization meant. Many of us
have ceased to worry, they must learn by
experience. For my part can't supply any
one with brains - have enough to do to
supply myself.

They fellows that we get from New York are
a horrible nuisance. They seem to come
here with the idea of taking charge of things
and are positively more than comical. The
saddest part of it all is, that they do not
deserve, because capable workers.

Between us the S. G. Municipal Ticket
is in great part an immense joke.
I think the newspapers treat us well if
they wanted to, the ticket could be
written up and beat anything Mark Twain
ever wrote.

A negro who was reported that a Comrade was
found in an "insanitary condition" (insane), a
fellow who wanted a substitute for his family
which he went into the country (and tenance)
and one who solemnly wanted to, "elect a
chairman by proportional representation,"
are all running for police judges. It's
like gyping the police.

Yours fraternally,
Eddie Hecht.
