

2876-25th St.,

San Francisco,

July 1, 1896

Mr. Henry Kubie,

Dear Comrade:—

Enclosed please find money order for \$5.60 to be credited to the S. F. American Branch for London Congress assessment stamps. This will settle the indebtedness of American Branch with Nat. Ex. Com.

Enclosed send you 130 stamps, as handed to me, this amount, \$13.00, is to be deducted from the debt of Liberty Branch to the Nat. Ex. Com. If this Branch owes any more send me a bill and I will present it to them.

Mrs. C. P. Stetson made application for admission to S. F. American Branch and what she said in a letter to a friend made her seem acceptable as a member but it was decided to forward to her the usual application blank to be filled out.

This she has done in a factious manner as per enclosed copy. This of course does not admit her. She says she realizes now that she is not orthodox enough for us. She says she will go to London as representative of a society (name she does not give)

0434

It seems to us here that our delegate Com. Inquiries should see to it that the lines are strictly drawn, in reference to philanthropic Socialists etc. Pietro Gori, the anarchist. What we he would make a desperate fight for the Anarchists' admission at London.

Yours fraternally,
Edu. Hecht.
