The merit and real worth of this publication is shown by the fact that since it was issued on November 1, orders for thousands of copies have been received from all parts of the world and additional orders are coming in by every mail.

In a clear cut and concise style this booklet goes thoroughly into the question of the economic position of capitalist society and the position of the working classes in relation to it.

The troublesome phases of the relations between the capitalist and the worker are dealt with in a manner which solves in plain and forceful logic many points on which the worker of today is often "at sea" when meeting arguments.

**THE BOOKLET FORMS A VALUABLE TEXT BOOK AND WORK OF REFERENCE BOTH FOR WORKERS AND STUDENTS OF ECONOMIC PROBLEMS.**

Many labor organizations are now sending "repeat" orders for quantities of this booklet, their first orders having been readily disposed of by sale or distribution. These advices state that the booklet is eagerly sought and read with keen interest by their members.
