

THE LARDEAU EAGLE.

VOL. III. NO. 18.

FERGUSON, BRITISH COLUMBIA, JUNE 13, 1902.

\$2.00 A YEAR.

TERMS OF SURRENDER

The First Lord of the Treasury Announced Terms of Peace.

MEETS APPROVAL OF NATION

Lord Milner and Eight Representatives of South African States Agree to the Terms.

First. The burgher forces, in the field will forthwith lay down their arms and hand over all their guns, rifles and munitions of war in their possession or under their control and desist from any other resistance and acknowledge King Edward VII. as their lawful sovereign. The manner and details of this surrender will be arranged between Lord Kitchener and Commandant Botha, assisted by General De La Rey and Chief Commandant De Wet.

Second. All burghers outside the limits of the Transvaal and Orange river country, and all prisoners of war, at present who are outside of South Africa who are burghers, will, on duly declaring their acceptance of the position of subjects of His Majesty be brought back to their homes as soon as means of transport can be provided and means of subsistence assured.

Third. The burghers so returning will not be deprived of their personal liberty or property.

Fourth. No proceeding civil or criminal, will be taken against burghers surrendering, or so returning, for any acts in connection with the prosecution of the war. The benefits of this clause do not extend to certain acts contrary to the usages of war, which had been notified by the commander-in-chief to the Boer generals, and which shall be tried by court martial after the close of hostilities.

Fifth. The Dutch language will be taught in the public schools of the Transvaal and Orange River Colony, where the parents desire it, and will be allowed in the course of law, for the better and more effectual administration of justice.

Sixth. Possession of rifles will be allowed in the Transvaal and Orange River Colony to persons requiring them for their protection on taking out a license according to law.

Seventh. The military administration of the Transvaal and Orange River Colony will at the earliest possible date be succeeded by a civil government, and as soon as circumstances permit, representative institutions, leading up to self government, will be introduced.

Eighth. The question of granting the franchise to natives will not be decided until after the introduction of self government.

Ninth. No special tax will be imposed on land or property in the Transvaal or Orange River Colony to defray the expenses of the war.

Tenth. So soon as conditions permit it, a committee on which the local inhabitants will be represented, will be appointed in each district of the Transvaal and Orange River Colony, under the presidency of a magistrate or other official, for the purpose of assisting in the restoration of the people to their homes and supplying these, who, owing to war losses, are unable to provide for themselves, food and shelter, and the necessary amount of seed, stock and implements, etc., indispensable to the resumption of their normal occupations. His Majesty's government will place at the disposal of these commissions the sum of £3,000,000 sterling, and will allow the notes issued under the law of 1900 of the South African republic, and all receipts given by the officers in the field of the late republics.

Continued on Page Three.

ANOTHER BIG MINING DEAL PULLED OFF

Two Great Free Milling Gold Properties Pass Into the Hands of the Pool-Young Syndicate.

It is the Eagle's pleasant duty this week to chronicle two more important mining deals, in some respects the most significant that have yet taken place in the Lardeau and Fish Creek camps, namely the sale for spot cash of one of the leading free gold properties of the district and the bonding by the same parties of an adjoining group, with a big cash payment down. The properties in question are the famous groups on Lexington mountain known as the Oyster and Roseland groups and the purchasers are—as might have been expected, for they don't let any of the good things slip through their fingers—Messrs. Pool and Young. It is only a couple of months since the Eagle was called on to record the sale to these two fortunate gentlemen, of the leading silver mine of the district, the Silver Cup and Sunshine. Last summer they acquired the leading gold property of the Lardeau—the Lade group of six claims up the south fork. Now they have secured two of the great free milling gold groups of Fish river, a district which has been astonishing mining men throughout the province during the past two years by its phenomenal free gold values and the enormous strength of its ledges.

The purchase price has not been made public, but it is understood to be in the neighborhood of \$150,000. This is a good bit of money and it will help the district greatly this season as a great deal of it will go into development work on other claims. Snug little fortunes were made by several par-

ties as a result of the deal, the owners of the Oyster being Jno. Ennest, B. B. Starkey, R. G. McLeod and Mrs. Wm. Allen of Comaplix, and of the Roseland, J. J. Foley, Cory Menhennick and others. The Oyster group consists of the Oyster, Critterton, Gold Bug and Mascot, and the Roseland group contains the Roseland, Imperial and Bal four claims. These properties join the Era group on two sides and all the Era ledges run into them. The present Era workings are but a short distance from the Oyster line. They are down about 400 feet where rich ore has been encountered in great quantity. The Era is now beyond all doubt a mine and a very rich one. Average assays of free gold at the 400-foot level run from fifteen to forty dollars a ton. This is the richest free milling gold ore in B. C. and when it is remembered that the ledges, of which there are a number, are from five to twenty feet in width it will be seen how big the proposition is.

Over 30 assays made by A. H. Holdich, S. Shannon and McLellan from the Oyster, Roseland and Critterton, run from \$23 to \$28 to the ton in gold, with a little galena and zinc blend. Besides the several well defined gold leads on the two groups there is a strong ledge of galena, which has been exposed for 200 feet and gives average silver and lead values besides about \$20 in gold. This galena deposit alone will make a mine. A large amount of work has already been done on the Critterton and Roseland including two shafts of 30 and 60 feet, several open cuts and considerable lead stripping. One average sample taken across twenty feet of ledge matter in an open cut on the Critterton gives \$23.00 in gold. There is too a rich band, or paystreak, in the ledge showing free gold plentifully which was

not included in samples for the above test.

While Mr. Pool is well versed in free gold mining in Colorado, Idaho, California and other gold camps in the Western States, he says he has never seen a finer showing than on the Eva, Oyster, Camborne and Goldfinch groups and is of opinion that Fish creek camp in the Lardeau will prove another Cripple Creek. People laughed when he said the Lardeau would be a great silver camp, but it has become the richest in the province and he predicts it will in the near future be one of the greatest gold camps in the world.

It is understood that these properties will be incorporated with the Ophir-Lade, the capital of that syndicate being increased for the purpose. Operations commenced Tuesday on a large scale to open up the properties, Messrs. J. and V. Lade, R. Gunn and J. Otto having left Ferguson Monday with a wagon load of supplies. B. Cully left the following day. A tramway will be built at once and a ten-stamp mill will be installed before the end of the month. Thus it will be seen that the Ophir-Lade people don't propose to lose a time talking about their latest acquisition, but will proceed at once, with their characteristic energy, to prove what they have got, and in the near future they will be turning out gold bricks of the genuine stuff.

Principal among the shareholders in the Ophir-Lade syndicate are W. B. Pool, J. J. Young, member of N. W. T. legislature for East Calgary, Messrs. Kirby and Walker of London, Eng., F. W. Godsol and W. F. Cochrane, two of the largest cattle ranchers in Alberta. Since the new deal a considerable amount of stock of the Ophir-Lade has been applied for by local men.

MINERS MIRACULOUS ESCAPE.

Accident Through Cage Getting Out of Engineers Control.

What might have been a serious accident occurred at the Nickle Plate mine at Roseland last week when eight men fell 200 feet and the miraculous part of the accident is that no one was killed, one escaping with a hand out. It would seem that the men were just going off shift and eight miners were being lowered from the surface to the 800-foot level, the lowest in the mine. While on their way down in the cage, by some means which are not exactly known, got off the control of the engineer and fell from the 600-foot level to the 800-foot level, a fall of 200 feet.

The engineer applied all the brakes that he could, and though ineffectual, they, together with the tension of the wire cable were sufficient to break the awful fall to the extent that the men escaped immediate and sudden death. As it is nothing with the exception of the cage itself appears to have been broken.

Relief for the Fernie Sufferers.

The Roseland Miners' Union has been informed that there are about 50 destitute families in Fernie in consequence of the disaster, and are sending relief direct to the secretary of the Miners' Union there in whose hands has already been placed the magnificent sum of \$3,000 from the Denver convention. The funds are disposed of in this particular way as the Fernie secretary has necessarily a closer acquaintance with the families concerned than can any other person.

Elmore Process of Concentration of Ores. The new Elmore process of oil concentration of ores appears, says the Colonist, judging from recent numerous tests, to promise great things.

Tests made on the low-grade ore of one of the Roseland mines gave the following results: The concentrates by the oil process contained 6.08 per cent. of copper, while concentration by water gave only 2.6 per cent., the silver and gold contents being proportionately higher and the tailings showing much higher recovery in the case of the oil than by the water concentration.

Preliminary tests by this process of ore from the Snowshoe mine, Boundary district, have also proved satisfactory, and it is very probable that several Elmore plants will ere long be in operation in the low-grade camps of the province.

Castiboo Mining.

Plenty of water, the hydraulic miners' greatest comfort, and everything going well describes the situation in Cariboo to-day.

Of all the hydraulic claims that worked last year only one of them, the San Juan is not working this season. The claim Ah Quay near Stanley is working with a larger crew than last year, the results justifying an increase in the outlay and no doubt there will be an increase in the yield of gold. Burns creek hydraulic has prospects of greater results than last year and they were then very satisfactory.

Metal Quotations.

Silver—52.
Lead—211, 7s, 6d.
Copper—Steady.

BOUND FOR THE CORONATION.

Governor General and Five Premiers Are Passengers on the Parisian.

An Ottawa dispatch says: The governor-general left for Quebec this evening en route for England to attend the coronation. The foot guards furnished a guard of honor.

Montreal, June 8.—The Allan line steamship Parisian, which sails in the morning, has a long list of passengers and notables on board. Probably so many noted Canadians never crossed the Atlantic together.

Besides the coronation contingent, the list includes the governor-general, Premier Murray, of Nova Scotia; Premier Peters, Prince Edward Island; Premier Tweedie, New Brunswick; Sir Robert Bond, premier of Newfoundland; Judge McDonald, Charlottetown; Principal Peterson, of McGill, and Dr. Parkin, of Upper Canada college, Toronto.

Royal Mint in Canada.

The establishment of a royal mint in Canada makes the fourth branch of the mint in operation outside of London. The other three branches are located in Australia, at Melbourne, Sydney and Perth respectively. According to published returns, the value of the gold coin output from these four mints during '99 are as follows: The Royal mint, London, \$42,904,555; Melbourne, \$28,138,555; Sydney, \$15,620,000; Perth, \$3,468,530. We believe that it is the intention of the government to establish another branch in the transvaal.—Ex.

BRUTAL FIGHT AT NAKUSP

Which Resulted in Death of J. J. Cole.

ROSE FOUND GUILTY OF MURDER

Nels Demars, an Old Man 78 Years of Age, Has His Skull Broken.

A fight took place five miles below Nakusp, Wednesday night last on the beach, resulting in the death of J. J. Cole and Nels Demars having his skull fractured, the latter being 78 years of age, and an old pioneer on the Columbia river, coming here in the sixties. J. J. Cole, W. H. Rose and Nels Demars, the last two being partners, the former who owned a ranch ten miles from Nakusp, had been drinking in town during the afternoon. They all left in a boat for Rose's ranch, apparently good friends. Rose returned to town late making a statement that his friends had met with foul play on the beach. Four citizens went out with him and found the most horrible scene awaiting them. J. J. Cole was dead, his jaw being broken by a blow of some kind. Demars had his face completely covered with blood, his skull fractured also other wounds. The place bore evidence of having been the scene of a severe struggle some hours previous. Demars and Rose were brought back to town. Rose was arrested, the former being unconscious until noon. Thursday when he regained consciousness he made the statement that after leaving Nakusp they had a quarrel in the boat resulting in their taking the boat to shore to settle the matter.

Demars remembers being struck with something in the hands of Rose, but after that he remembers nothing. Demars has made a written statement of all the facts he is aware of. Dr. Cross of Revelstoke was wired for and arrived on the noon steamer. He at once went to the scene of the fight, and brought the body of Cole to town. The coroner held an inquest and found Henry H. Rose guilty of the death of J. J. Cole. The prisoner was taken to the Revelstoke goal last Friday, awaiting instructions from the attorney-general. Nels Demars will be removed to Kamloops to undergo an operation on his skull, it is doubtful if he will recover. Cole comes from a very respectable family in Michigan. His body is to be returned there. Demars was never known to quarrel. The affair is a mystery.

In the Lardeau.

For three or four years a syndicate composed of New York men headed by George Gould, has been working quite extensively on the Skeena river, near Kitalasa canyon, prospecting and developing some copper-gold proposition. This syndicate is now incorporated as a joint stock company, capitalized at \$600,000, in \$5 shares. At present Alfred Skitt, of New York, is acting president, while the management and superintendence of the work is in the hands of S. Arden Singlehurst, at present in Vancouver purchasing supplies. Mr. Singlehurst has been manager of the operations conducted by the Gould syndicate and is familiar with the section in which the claims are located. During the past three years, the Gould syndicate have expended a large amount of money in prospecting and developing the properties. The fact that the developments are so important that it was not considered desirable to continue work merely as a syndicate is one of the principal reasons why the Niagara Mining and Developing Company was organized.

Lardeau Eagle

Published every Friday at Ferguson, B. C.

Four weekly insertions constitutes one month's advertising.

FRIDAY, JUNE 13, 1902.

It is a matter of regret that the B. C. government should show such a penurious spirit in the treatment, or lack of treatment, of the wagon road from Thomson's Landing to Trout Lake and Ferguson. It takes five long hours of steady driving for the stage, with four good-sized horses, and also other light rigs, to make the drive and the distance is only sixteen miles. Serious inconvenience and delay is caused daily by this gross carelessness or stinginess on the part of the lands and public works department at Victoria.

The Eagle firmly believes that the Lardeau does not get its just rights in respect of appropriation for roads and trails. Comparatively judging the Lardeau coughs up yearly a very considerable portion of the revenue of the province and if proportionate encouragement were given in the way of building and keeping in repair trails and roads, the district would soon treble the revenue now paid. There are many high grade properties ready and anxious to ship, but are prevented by a lack of roads. Most of the parties owning these mining properties would contribute largely out of their own pockets if the government would do by the district what is right. The Eagle believes that other districts have been more favored and sometimes when they were not entitled to as liberal treatment as this. The fault may lie with the general road superintendent, but the Eagle believes it lies with the department. What the Trout Lake wagon road requires is to have the holes, ruts and rocks filled in and removed and in a few places the grade could be materially lessened by a small outlay. Now it is impossible to make good time on account of the wagon wheels encountering a water hole or deep rut every few yards, which if driven over quickly would endanger the life of passengers. It is hoped that this matter will receive attention for a large number of mining men are expected to visit the camp in July. It has often been remarked that when the average mining man starts out to visit a camp much depends on how he feels on arriving at his destination. If he is dead tired and hungry and his limbs strained and body shaken, as it were in a dice box, the camp and everything in it are likely to look decidedly blue to his eyes and he will be prone to think more favorably of retracing his steps than of ascending the mountains to examine a claim. Let us therefore have the main thoroughfare of the district kept in patently good repair.

The Eagle takes pleasure in being able to congratulate the Ophir-Lade people on acquiring what is likely to develop into a great free milling gold mine. There is no mine so profitable and so easily worked and so free from trouble and trials which a miner may have to contend with as a good stamp mill proposition, which can turn out gold bullion and be independent of smelters and transportation companies. Taking the history of all the mines that have paid large dividends, we find that many of the largest dividend payers have been free milling gold propositions and generally the ore was very low grade, but the ore occurred in large bodies which enabled it to be mined and treated cheaply. The gold ledges on Fish creek are also large and on top of this they are excessively rich, its lowest grade tested by Messrs. Pool and Young going much higher than the great world renowned Homestake and Treadwell mines. Thus it will be seen how bright are the prospects of the Fish creek mines becoming great dividend payers and this camp reaping the benefits to be derived from these important operations. Following are some of the best known gold mines of the United States their authorized capital stock and the dividends paid: "Treadwell," Alaska, capital \$5,000,000, shares issued 200,000, dividends \$4,865,000. "Buffalo Hump," Ida-

ho. capital \$1,000,000, shares 1,000,000, dividends \$300,000. "Homestake," S. D., capital \$21,000,000, shares 210,000, dividends \$1,068,750. "Portland," Colo., capital \$3,000,000, shares 3,000,000, dividends \$4,209,080. "Stratton Independence," Colo., capital \$5,500,000, shares 1,000,000, dividends \$3,792,857.

The Eagle is \$2 a year.

LARDEAU ORE SHIPMENTS.

The following is a list of Lardeau ore producers amount shipped and the gross returns, report of which have to be furnished monthly by mine owners to the provincial government.

Name	Pounds.	Gross Val.

LOCAL FIELD IN BRIEF

Jan. Othe returned from the Slocan country on Saturday.

Wm. Shanon returned on Friday from the Edmonton country.

Born to Mr. and Mrs. A. E. Kincaid, a son, at Revelstoke on June 4th.

J. J. Young and W. B. Pool returned from Camplix on Saturday last.

Wm. Schnell, the popular barber of Trout Lake, visited Ferguson Sunday.

Messrs. Atwood and Forbes returned from a trip to the Silver Cup on Tuesday.

Sam Sutherland, who has been on a visit to the Coast, returned on Saturday last.

Owing to the illness of Rev. Mr. Green there was no service in town on Sunday.

F. C. Elliott, barrister of Trout Lake and Ferguson, paid a visit to Ferguson on Wednesday.

Miss Hanson who has been visiting Mrs. McKinnon, left for her home in Nelson Saturday.

Work has ceased for a time on the new hospital building owing to the scarcity of lumber.

Dave and Andy Ferguson who were in town several days, left again for Victoria on Sunday.

G. N. Gilchrist, general superintendent of agencies for the Singer Sewing Machine Co., came in on Tuesday.

J. V. Reeves, our popular watchmaker, made a business trip to Camborne this week, returning Wednesday.

J. J. Young, M. L. A., left Tuesday morning for Calgary. Mr. Young intends returning to Ferguson early next week.

Jack Innes, one of the former owners of the Oyster group of mines at Camborne, paid a visit to Ferguson on Saturday last.

A fresh volcanic outbreak occurred on Mount Pelee, Martinique Saturday, but it was not violent enough to cause much alarm.

Alex. Cummins went as far as Revelstoke last week to meet Mrs. Cummins, who was returning from a visit to Grand Forks. Mr. and Mrs. Cummins arrived in Ferguson on Friday last.

The fortifications and troops at Esquimalt were investigated last week by General Parsons who in an interview declared the station to be the finest he had ever seen for its size.

The Great Northern railway boiler-makers at Spokane who demand an increase in wages, will strike unless concessions are made at once. The strike will extend from the Mississippi river to the Pacific ocean.

As a result of the Fernie disaster it is stated that at least fifty women have become widows and two hundred and fifty children rendered fatherless. All the villages, towns and cities of the province are sending assistance to the relief of the distressed.

Live cattle were brought in as far as Trout Lake on Monday last and from now on the Ferguson meat market will have prime fresh beef constantly on hand. Those who have seen the cattle say they are the finest beef steers that have ever been brought into the Lardereau. Pork was scarce and no hogs were brought in, but a shipment is expected next week.

Trades unionists should not forget that the labor strike with the T. Eaton departmental store is not settled. The printers, pressmen and bindery girls are not looking in vain for support, as thousands of buyers have discontinued visiting the Eaton store. Working-men should not buy goods from Eaton's stores, but at home. If you earn your money in Ferguson you should spend it in Ferguson. This is true patriotism.

Bishop Grandin, the first Roman Catholic bishop of St. Albert, Alta., died Tuesday at St. Albert after a long illness. He was the senior bishop in Canada having been consecrated in 1850, his see included the entire territory of Alberta. In 1851 he came to the northwest and has travelled all the north country including the McKenzie river district on snow shoes and by dog train. He was very popular with his people.

Mr. and Mrs. Godson are on a visit to Mr. and Mrs. Daney.

The Quadrille club held a very successful dance last night in the Miners' Union hall. An enjoyable time was spent by all present.

Work is being pushed forward at the Triune and more men were sent up to the mine Thursday. S. Daney also made another trip with supplies.

Mr. E. Moscorop, an experienced plumber from Revelstoke, is in town for a few days to do some work at the Ferguson Hotel. Anyone requiring work done in this line should apply early.

Mr. Twiss, general agent for the Mutual Life Insurance Co. of Canada paid a visit to Ferguson Thursday, leaving for home Sunday morning. Mr. Twiss intends revisiting the Lardereau in the near future.

A party of gentlemen from New York have spent a month hunting bear on Wilson creek near Sandon. They succeeded in getting three fine grizzlies, and might have killed a score of black bear and mountain goat, but they refused to kill anything short of grizzlies.

A copy of the new newspaper published at Camborne reached us Wednesday. It is called the "Camborne Miner" and is brightly edited and replete with news of the district. If it faithfully follows the platform mapped out for itself, we bespeak for it a prosperous future.

Relief for Fernie Sufferers.
A number of citizens of Ferguson have expressed a desire to contribute to the fund for the relief of the unfortunate widows and orphans of Fernie. Therefore the Eagle will be glad to receive subscriptions and will acknowledge same in its columns from week to week.

J. D. Graham's Resignation Accepted.

James A. Fraser, of Atlin, has been appointed stipendiary magistrate for the County of Vancouver; government agent, gold commissioner and assistant commissioner of lands and works for the Atlin Lake, Bennett Lake, and Chilkat mining divisions; assessor and collector under the Revenue Tax Act for the Atlin assessment district; and collector of votes for that portion of the Cassiar electoral district contained within the boundaries of the Atlin Lake, Bennett Lake and Chilkat mining divisions, vice J. D. Graham resigned, such appointment and resignation to take effect on the 1st of July, 1902.

AID FOR FERGUSON'S HOSPITAL

The miners and business men of Ferguson have united to erect a hospital here. This is an absolute necessity as there is no place in which we can properly care for a sick man who does not happen to have a home of his own. There has been about \$1,500 subscribed towards the hospital locally and the Eagle has been requested to receive subscriptions from outside points which will be acknowledged through the columns of the Eagle each week. There is something like \$1,500 more to raise and we hope that those who have made money in this camp will remember those who work away from the comforts of older communities and send along a liberal sum to help in the good work. The hospital will be owned and operated by the members of Lardereau Miners' Union. Address all subscriptions to the Eagle.
