COMED DOWN!
On most of this universe, why wander through that wilderness of darkness in the midst of this great world of knowledge? Why soar away up into ethereal space and converse with the angels?
Come Down Upon This Earth and let us reason together.
You admit that the workers of the world are being oppressed and treated. Poverty you say is rampant, prostitution a disgrace, and crime on every-day. The social structure is such that conditions you say are such that human nature, and that can stand in the face of such a situation, is being crushed by the weight of the world.

MY BELIEF ACTRESS
Reminiscences of Childhood
By J. K. Mergler.
Just a few words they were that met my ears. I was sitting in the school room, and my eyes were fixed on the blackboard. The teacher was talking about the life of a man who had done great things for his country. I was listening to him with a great deal of interest. He was talking about a man who had been a soldier and a statesman. I was listening to him with a great deal of interest. He was talking about a man who had been a soldier and a statesman.

THE ACID TEST
The acid test is generally mentioned in connection with gold. It is a process which the owners of gold coins and ornaments are able to detect the base or fraudulent from the genuine. This acid test is of no particular importance in the world of the worker. It is absolutely necessary that he should learn how to apply it.
Almost Daily the Worker is Called to decide on some line of action. If it is not in connection with the policy of running union affairs, then it is in connection with the policy of the party that presents itself more prominently than others is politics.

OUR FORGIVENESS.
The agitation started for the release of the C. O. missers recently railroaded to jail with outrageous sentences on frivolous charges, the use of the police and their fighting spirit, provides an opportunity for the dissemination of the truth and the dissemination of the cause of the workers.

They are revolutionists, and during the years of their imprisonment they have lost none of their fighting spirit. They are the workers of Canada, and they are the workers of the world. They are the workers of the world, and they are the workers of the world. They are the workers of the world, and they are the workers of the world.

Thus I moved during the time we were ignored by the gentleman. He was a man who had been a soldier and a statesman. He was a man who had been a soldier and a statesman. He was a man who had been a soldier and a statesman. He was a man who had been a soldier and a statesman.

Will it give me more of the necessary means for the support of my family and a decent house to live in? And always keep in mind that these are the things you have been striving for all your life.

MINERS AWAITING TRIAL RELEASED ON BAIL.
Vancouver, Nov. 22.—After a strenuously opposed application this morning the court has granted bail to the miners who are awaiting trial for the murder of James H. Hunter. The bail is set at \$10,000 for each man, and the court has granted bail to the miners who are awaiting trial for the murder of James H. Hunter.

A Timid, Speechless and Savage Creature Called Man.
After a long sojourn, no doubt, upon the earth, man discovered fire, and with it he became a barbarian. As time progressed, he learned to domesticate animals, and he discovered how to till the soil and raise cereal crops, he began to become a civilized being.

It is a long time since all this happened. It is a long time since all this happened. It is a long time since all this happened. It is a long time since all this happened. It is a long time since all this happened.

CONVERSATION OVERHEARD.
No. Three. I wouldn't subscribe for "The Western Clarion" that Socialist sheet. A friend of mine sent me Cotton's Weekly, but you can bet your neck I gave him to understand that he wanted to keep my friendship that he better quit sending me these anti-socialist papers.
Replying to his companion said: "Yes, I'm a workman, but I'm also a citizen. I'm a citizen of the British Constitution. I'm a citizen of the British Constitution. I'm a citizen of the British Constitution."

ECONOMIC Necessity.
All of us are aware of the economic necessity of the working class. We are aware of the economic necessity of the working class. We are aware of the economic necessity of the working class. We are aware of the economic necessity of the working class.

THE GREATEST MENACE OF THE AGE.
By KING HENRY VIII.
That is what the National Association of Manufacturers has said about Socialism. The N. A. M. is the most avowedly capitalist body in the country. It is the most avowedly capitalist body in the country. It is the most avowedly capitalist body in the country.
